3

COVID-19 TEACHER SURVEY

- Questions developed with input from collaborators from all partner organizations
 - Series of closed-ended items
 - Sought feedback on teachers' experiences and perceptions during the initial switch from in-person to remote teaching and learning
- Administered from May 18 to June 3, 2020
- Sent to 47,000 teachers
- Received 12,150 responses (26% response rate)

4

MENTAL HEALTH ASPECTS

Teachers' adjustment to remote teaching and learning

5

Sources of work-related stress during school closures

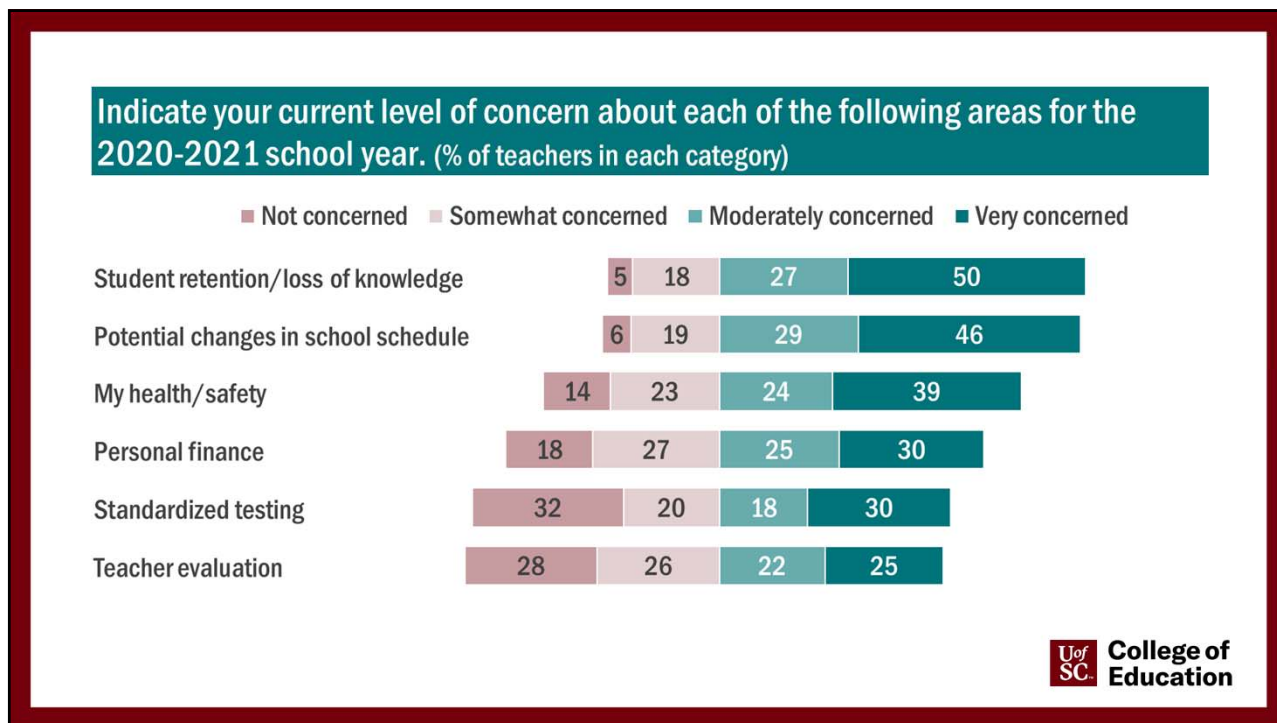

(% of teachers in each category; "Not applicable" responses removed from calculation of stress level percentages)

6

7

8

SOURCES OF SUPPORT

People who provided support during the switch to remote learning
 (% of teachers who indicated moderate or extensive support)

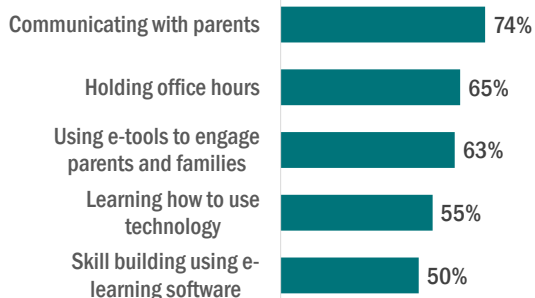

9

RELATIVE TIME SPENT ON TASKS/ PRACTICES

% who spent **less or much less time**
 during school closures

% who spent **more or much more time**
 during school closures

10

RESULTS BY DISTRICT DEMOGRAPHICS

- Poverty
 - Divided districts into quartiles based on 2019 pupils in poverty (PIP)
 - Compared results from teachers in districts with the highest and the lowest poverty quartiles

- Locale
 - District designation from E-Rate data file (free/reduced meal eligibility)
 - Compared results from teachers in rural and urban districts

11

STUDENT INTERACTIONS

% of teachers who indicated they interacted with students daily during COVID-19 school closures

12

TECHNOLOGY ACCESS GAPS - POVERTY

Student access to online learning resources by district poverty levels
 (% of teachers who agree or strongly agree in reference to their students)

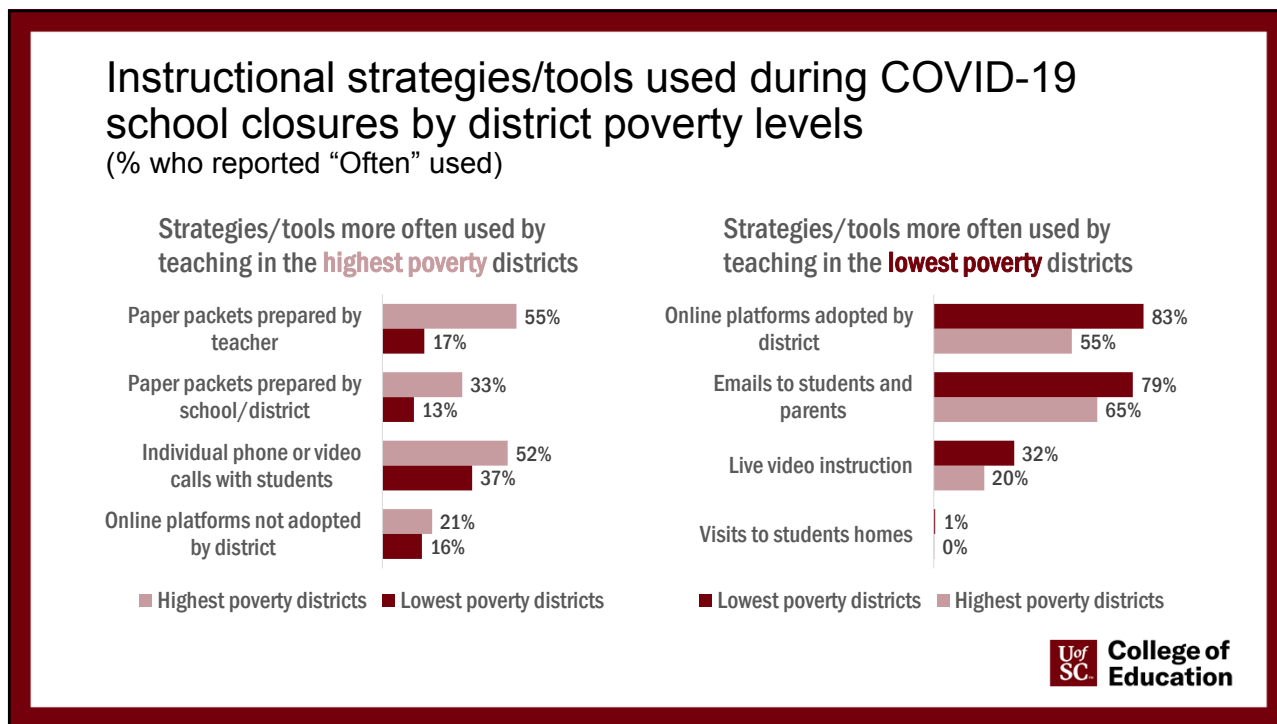

13

TECHNOLOGY ACCESS GAPS - LOCALE

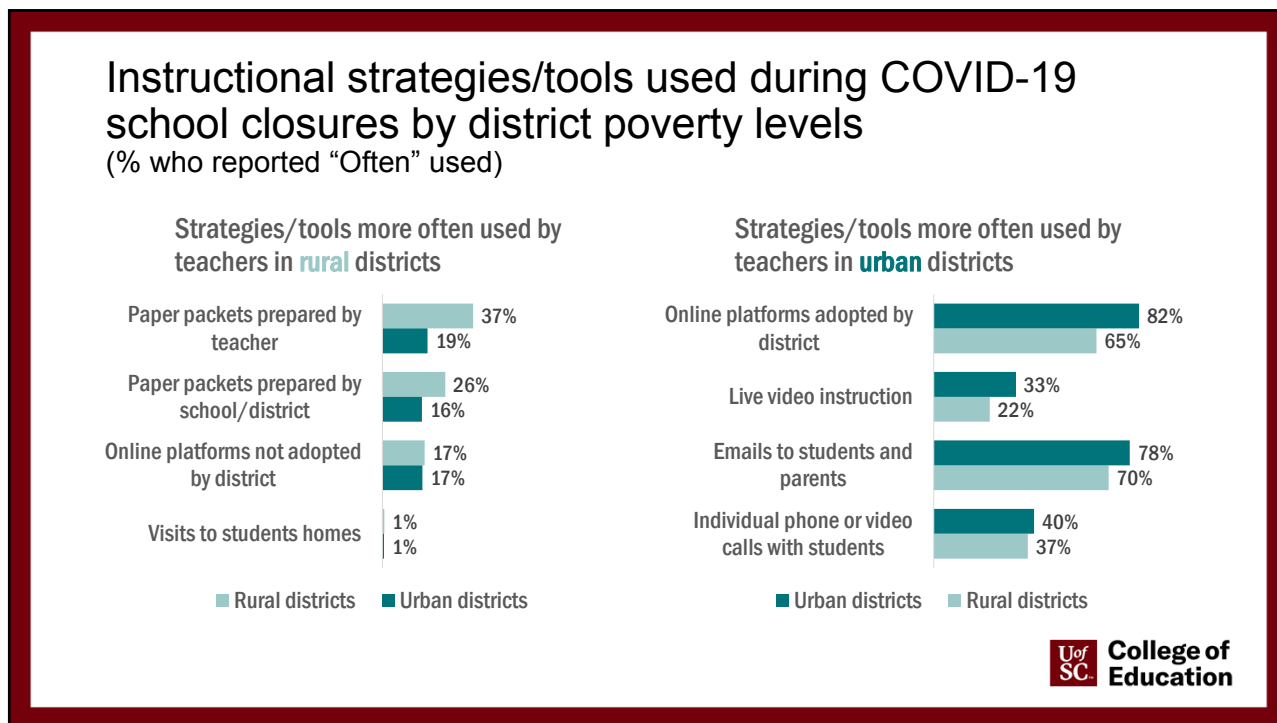

Student access to online learning resources by district locale
 (% of teachers who agree or strongly agree in reference to their students)

14

15

16

RECOMMENDATIONS (BERRY ET AL., 2020)

- Eliminate the technology divide
- Accelerate development of the Learning Management System
- Invest in professional learning networks for and by teachers
- Rethink the roles of teachers as leaders
- Support cross-sector collaboration to serve the whole child

17

THANKS!
